CITY MEETING LAYS TEN MILL TAX

Department Amounts Sliced Down so as to Include the Extra Amounts within the Limits of Such a Tax-Fire Department and Street Lighting Reduced-Validity of Spending Money for Celebration Raised-Session of Three Hours with Much Debating

As the result of the three-hour segion of the adjourned annual city meeting on Tuenday evening in tow on the adjourned annual city meeting on Tuenday evening in tow on the adjourned annual city meeting on Tuenday evening in tow on the adjourned annual city meeting on Tuenday evening in tow on the adjourned annual city meeting on Tuenday evening in tow on the annual city meeting on Tuenday evening in tow on the annual city meeting on Tuenday evening in tow on the annual city meeting on Tuenday evening in tow on the annual city meeting on Tuenday evening in the city will be under a ten-mill tast the coming year, a number of course of the attraction was a continual to the city of the attraction of the city of the city will be under a ten-mill tast the coming year, and the continual tast to coming year, and the city of the cit meeting on Tuesday evening in town hall, the city will be under a fen-mill tax the coming year, a number of cuts having been made in the regular department estimates, while enough of the extras were voted to bring the entire amount up to about what the total department estimates amounted to.

The seating capacity of town hall was by no means large enough for the large crowd of about \$60, people, although the standing room was not crowded, when Mayor Lippitt called the meeting to order at 8 o'clock. After the long call had been read with the estimates, Mayor Lippitt welcomed the large gathering and ventured the remark that it looked as if another addition to the town hall would be necessary and expressed regret that the new seats had not arrived.

Gen. W. A. Aiken endeavored in behalf of time to have the estimates taken up by departments instead of each item by itself, but John Donovan objected in regard to one item. C. D. Noyes thought the fairest way was for each item to be voted, as has been the custom in the past, so as to given everyone a change. W. H.

was for each item to be voted, as has been the custom in the past, so as to given everyone a chance. W. H. Shields also favored this, and moved General Aiken's motion be tabled, which was done.

The estimates, as presented by the finance committee of the council and approved by the council, were then acted upon and voted by the meeting as follows:

..... \$25,000,00 2,650.00

City Court Street Lighting
Health Department—
Salaries \$1,000,00
Disinfactants, etc. 150.60

Gas and Electrical Department Operating and gen-eral expenses . 395,000.00 Fixed charges (in-terest on bonds) 20,000.00 \$115,000.00 Park Commission

Finance Department-Salaries and commissions \$4,500.00 Court house expenses 7,000.00 Sinking fund, general (½ mill). 6,299.12 Sinking fund, gas and electric profits 13,165.15 Reserve fund, gas and electric department 14,250.88 Interest 46,606.00 Election expenses. 575.00

lection expenses.

o repay loans
(current year).
ontingent ex-60,000.00 8,866.46 \$160,756.11

\$425,041.11 On the matter of ordinary street expenses, John Donovan thought the cliff street improvement could be included within that sum, and said that he had estimated the cost at \$462, and moved that the work be included in the ordinary street expenses. Street Commissioner Fellows thought that all

the manufactories are supplied with apparatus and have to, to get their items were to be taken up separately. Mr. Donovan was ruel out of order, and the regular appropriation was made.

The other items under the public works committee's jurisdiction were acted upon without comment until the \$2,000 for the Crescent street sewer was street has a sewer except the Norwich club. He claimed the sewer was for the benefit of the Norwich club and the Norwich Free Academy, and he opposed it, believing that their present method of sewage is all right.

C. D. Noyes spoke feelingl yin behalf of the Free Academy, stating that it has been a benefit to everyone, and if anything is voted tonight this should be. He was heartily applanded and the item was voted. The sum of \$400 for the School street sewer was also voted.

When the Boswell avenue sewer came up, for which \$2,900 was asked. C. D. Noyes asked if anyone had petitioned fo rit, and was told that no petitions had been sent in, but one man ventured the remark that the sewer is needed, although another said the mater, and that action was taken.

Talman Street Sewer.

There was a long tal keyour the said they want.

There was a long tal keyour the said they want.

There was a long tal keyour the said they want.

came up. for which \$2,900 was asked.
C. D. Noyes asked if anyone had petitioned fo rit, and was told that no petitioned fo rit, and was told that no petitioned had been sent in, but one man ventured the remark that the sewer is needed, although another said the majority do not want it. Mr. Noyes moved the indefinite postponement of the matter, and that action was taken.

Talman Street Sewer.

There was a long tal kabout the Talman street sewer and its needs. Henry Gebrath stated that it seemed to be an injustice to the taxpayers, as those on the north side are now sewered into the river, while some on the south side are or could be, and he doubted if the residents could be made to pay for a sewer there. He said the sewer is not needed and moved an indefinite postponement. Nichoal Tararat talked against the sewer and created much laughter by moving that it be indefinitely postponed, not having heard Mr. Gebrath's motion.

Josephus Stone made a telling plea, claiming that a few years ago he opposed the sewer, when it should have

claiming that a few years ago he op-posed the sewer, when it should have been voted. The sewer should be built and the health officer will say so, if he tells the truth. John Donovan said the sewer should be built for \$1,589, the sum asked a few years much sickness in the sum asked a faw years ago. He thought the best way and the cheapest was to lay a private sewer there. May-cr Lippitt was unable to decide on a viva voce vote after three trials, and a ballot was taken, resulting in 88 opposed and 70 in favor of laying it on the stomach.

The fixing of the amount was taken ap and \$1.575 was voted to build the sower, it being stated that that amount was figured on a sewer from Main to Pinckley streets. The sum of \$2.200 was asked for the sewer. There was some talk about whether it would be done by contract or by the city, but no definite answer could be obtained.

For the department of cameteries \$7.500 was voted, a trifle less than last lust year, but the amount asked for.

When the amount wanted for the fire department, \$34,340, was read, every-cane broke forth with a whistle. Last year it was stated \$29,000 and \$1,500 for hose was voted. Mr. Shields asked if \$5,000 more was not wanted laster for a fire engine, and was answered in the affirmative, adding that it meant about \$40,000 for the fire department, and the whistles were heard again.

Edward Kirby moved that the same as last year, c. D. Noyes did not think that quite fair, as we want to see each department set by without a dediciency, he said. Deficiencies are not good, and he asked the reason for the same announts find year. Last year, he said, the department, and the sweet is the city in darkness.

Mr. Noyes said he conceded nothing the see each department set by without a dediciency, he said. Deficiencies are not good, and he asked the reason for the same amounts this year. Last year, he said, the department, but with the city of departments, but with the city of departments, but with the city in the city in darkness. Cut in Fire Department.

William H. Shields asked the chief about the Greeneville station, if the companies were volunteers, and the only ones in the city, and was answered in the affirmative. He asked the chief if it was proposed to abandon the only volunteer company in the city and turn it into a paid company. Chief Stanton read the recommendations of the fire commissioners which stated that the estimates did not include the pay for men for the Greeneville station, should a part paid company be located there. He stated that clude the pay for men for the Greene-ville station, should a part paid com-pany be located there. He stated that he was subject to the fire commis-sioners and must do as they say. He didn't know but what a part-paid empany was cheaper than a volunteer

company.

John Donovan moved that the appropriation be the amount granted last year plus the deficit.

William H. Shleids told of the several meetings held last year to vote increases for departments until 12 or 13 mills was the amount of money given to run them. In the interest of the city these expanditures should be en to run them. In the interest of the city these expenditures should be cut down. He expressed great ad-miration for Chief Stanton, who, he said, is the best in the state, being capable and efficient, but he is ambi-tious and wants the department to equal New York city. "We can't af-ford it any more than the working-man can afford an automobile," he said.

said.

Regarding the deficits there is a statute making it a crime to exceed appropriations. There is no right to do so, but it was probably done so a third special meeting would not have to be called. Hydrants are fire appurtenances, he claimed, and Mr. Twist should have been allowed to inquire. On Main street, he said, there is a fire company which should not be PEOPLE'S STEAMBOAT CO.

For the police department the sum of \$27,550 was given. Mr. Shields asked the reason of the increase and was told by Alderman Robinson that it was for the increased pay and salaries vot ed the men in the department. Street Lighting Sliced.

Street Lighting Sliced.

When \$23,210 was asked for the street lighting C. D. Noves asked for the reason of the increase and Alderman Robinson stated that but one new light had been added, yet the expense for 1908 had been about \$2,000 larger than 1207, the price for arc lights being \$79.53 and incandescents \$13.85. This increase in price was asked of the gas and electric department in regard to the estimates and they were told that if arc lights were figured at \$80 and incandescents at \$15 they would get through. The cost of the lights are figured at the end of the year.

Mr. Noyas asked of Superintendent Bogue of the light plant the cost per kilowatt hour last year and was told it was a fraction over four cents while the current from the Uncas Power company costs 1.1 cents. He stated that the price had been reduced to the citizens but it hasn't been decided how much to reduce it to the city, as at the end of the decartment.

oseph Cruttenden suggested buying the cheaper rate recently given out the department, but Mr. Bogue in-med him that that rate was for

Chairman John McWilliams of the lighting commission said Mr. Noyes had intimated that an injustice is being done the citizens by the charge for the lights. The commission, he said, is working under a statute and the costs are figured at the end of the year. He told of the steam plant being kept ready during the winter and said the city has slways got its light at cost and whafever profit from the Uncas Power company contract the citizens will get the benefit of it.

Mr. Noyes thought some estimate could be made of the reduction by the new contract and Fred Klein asked why the superintendent's salary was increased. Mr. McWilliams said there was no spolegy to make for the increase in salary, as he earned it.

Commissioner Raymond stated that it didn't make any difference what the city meeting votes for street lighting.

Special Appropriations. The following special appropriations

\$2,000,00 1,050.00

\$8,050.00 When the matter of appropriating \$2,000 for the celebration came up and a motion to appropriate \$2,000 was r.ade. Corporation Counsel Briscoe \$1,000 could be appropriated in one (Continued on Page Seven.)
